SUMMARY

Full-stack developer with professional experience in web development and IT support. Graduated in IT Management and pursuing Business Computing at TU Dublin. Currently building Producer, a Chrome SaaS extension for focus and productivity. EU citizen with full work rights, available immediately.

PROJECTS

Producer – Focus & Productivity Chrome Extension — *JavaScript, Chrome Extension API, Manifest V3*

- Founder and solo developer of a productivity tool that lets users block distracting websites and URLs with granular control (domains, specific pages, query parameters).
- Features include session tracking, focus timers, import/export of blocking rules, custom mode profiles, and more — built to freemium model with paid tier in progress.
- Published on the Chrome Web Store; expansion to Firefox, Edge, mobile, and desktop planned.

desempregados.com – Full-Stack Job Portal — *Node.js, Express, MongoDB, Passport.js, Bootstrap, Cloudinary*

- Full-stack job platform for the Brazilian market
- Dual-role authentication (candidates & companies), complete CRUDs, image uploads, and session management.
- Deployed on Render with Cloudinary integration for media management.

Portfolio Website — *React, JavaScript, Bootstrap, EmailJS*

- Responsive single-page application featuring live project demos, light/dark mode, smooth animations, and an integrated email contact form.

These projects and more are available in more detail on both my [Portfolio Website](#) and [Github](#).
